## **Report of The School Board.**

---

The School Board of Moultonboro submits the following report.

We have visited the schools of the town several times during each term and we think good progress has been made in every school. In some of the schools the progress was very marked.

We believe that the standing of a town depends more upon the kind of schools it maintains than upon any other factor. The school children of to-day, will, in a few years, be the men and women who will be called upon to conduct the affairs of the town.

Among all the obstacles to progress the indifference of the people is the greatest. If the parents will become aroused from their indifference, come to realize the importance of good schools, and work for this end the schools can yet be improved and the benefits derived from a better education and a better fitting of our boys and girls for life work, will be inestimable.

We believe that the town should put its school buildings into a more healthy and comfortable condition and that it is false economy to allow some of the school houses to remain in the condition they are at the present time.

D. E. BURNS,  
F. S. LOVERING,  
Committee.
